Introduction

- This is a new generation of all-aluminum body fold-able RGB photography light with exquisite and compact design and easy operation. With 360 colors and 100-level saturation adjustment and dual-color temperature lamp beads, the fold-able RGB photography light offers various colors and scenes.
- This LED Photography Light applies high-quality, high-lumen, high-display LED lamp beads to make soft and even light and more realistic colors. Also, this light provides 12 commonly light effect scene mode simulations. With built-in high-capacity and lithium battery guarantees the long battery life.
- Equipped with hot shoe bracket, the light can be fixed in multiple directions and angles. The multi-functional, multi-purpose photography light is the must shooting equipment for live podcast, video, interview, portraits, weddings, macros, creations.

Features

- Unique Design,Dual LED Video Lights connected with a hinge,both can be folded and swivel for multi-direction.Three 1/4"screw holes in the body,one cold shoe nut,another one hot shoe adapter with adjustable ball head,allows you to position and meet your various video/photography demands.
- High lumen 2960Lux@0.5m,Hue adjustable from 0 degree -360 degree;Color Saturation adjustable from 0-100,CRI >97,TLCI >96 Brightness from 0%-100% dim-able; Color temperature from 2600K(warm) to 12000K(cold). OLED display offers accurate readings and easy to operate with the buttons/knobs.
- Built-in 7.4V 3200mAh rechargeable battery,USB Type-C charging port,it can be fully charged in 3 hours with 9V,supports full power 165 minutes working with only A or B panel at 100% brightness,105 minutes working time with both A and B panel lights,it will be longer with lower brightness.
- Adopts two-color temperature lamp beads 316pcs,high quality and high definition.Two panel video lights together is still compact and

lightweight, only 13.05oz for two, 4.92inch*2.83inch*1.22inch(size) is suitable for carrying even in pocket, it is perfect for daily photography, video shooting, Youtube, live streaming, etc. It can also stand on its own, which is good for desktop lighting.

Components

- ① USB-C Charging Port
- ② ON/OFF
- ③ Mode Switch Knob /
ON/OFF of A/B Light Panel
- ④ FN Knob
- ⑤ Brightness Knob

- ⑥ Screen
- ⑦ Warm White Dual Color
Patch Lamp Beads
- ⑧ RGB Lamp Beads
- ⑨ Panel A Light Area
- ⑩ Panel B Light Area

Parameter

Model	TC316A-RGB	Color Temperature	2600~12000k°
Power	20W	Lux	2960LUX(0.5M)
Connector	USB-C 5V 9V	Utility Time	165/105Minutes
Battery Capacity	7.4V 3200mAh	LED Lifetime	50000 Hours
Brightness	0~100%	Material	Aviation Aluminum
RGB Color Gamut	0~360 Full Color	Heat Dissipation	Metal Heat Dissipation
Color Rendering Index	>97	Size	125.6*80.7*31
TLCI	>96	Weight	370g

* The data is an average value. The parameters of different lamps will have small differences.

Operation

(1) Mode Switch Button

Press Mode A/B button to switch and cycle three menu interface (Short press to switch mode. 2-second long press light on/off A/B panel)

Light Effect Mode

HSI Color Mode Interface

CCT Mode Interface

(2) HSI Color Mode Interface

HSI  100%

H : 140°

S : 100

B A

1. Press FN knob to switch the color gamut and saturation functions.

2. Dial FN knob to cycle the color gamut degrees from 0~360.

HSI  100%

H : 140°

S : 100

B A

1. Press FN knob to switch the color gamut and saturation functions.

2. Dial FN knob to adjust the color saturation from 0 to 100.

(3) CCT Mode Interface

CCT  100%

T : 3000K

B A

FN knob adjust the color temperature of 2600~12000K° freely.

(4) Light Effect Mode

SCN  100%

N : 1 RGB Slow

B A

Dial FN knob to cycle 12 kinds light effects.

(5) Brightness Adjustment

SCN  100%

N : 7 Lightning 1

B A

Scrolling the Brightness knob to adjust brightness from 0~100%.

(6) FN Knob

Dial FN knob to cycle 12 kinds light effects.

Power Charging

CCT ☀ 100%
T : 3000K

While charging, the screen displays the ⚡ icon. The battery icon flashes to indicate charging status.

Battery Icon

Each cell represents 20% of the charge. When the last cell is used up, the battery symbol will flash to warn and turn off the light after about 5 minutes.

Power Switch

ON | OFF

Turn on/off the light.

Precautions

- Do not shine the LED directly at people's eyes at short distances. This can cause short-term vision issues. Use at distances of at least 1m from subject - or use a reflector/diffuser to soften the light.
- Do not place the LED close to alcohol or flammable objects.
- Do not place liquids on or near the LED. The product is not water, splash or dust resistant.
- Use a soft cloth and neutral cleaner to clean the LED light.
- Do not use strong cleaning agents or solvents such as thinner gasoline or alcohol to clean the LED light.
- Do not store the LED at temperatures of +40C as high temperatures may damage the product components.
- Do not use the LED in outdoors in direct sunlight for an extended period of time to prevent the product from overheating and possible damage.
- Because of the built-in Li-Polymer battery - do not disassemble, crush or incinerate.
- Please use the specified charger within the specified voltage and temperature range.
- To keep the battery in proper working order use the product and charge the battery at least once per month.
- If left unused for a long period of time recharge before using.
- Li-Polymer battery cells lose capacity over a product's lifetime. Performance will be reduced.
